\*Dates, Times and Program Content are subject to change by Quantum Speed. Please check the website the week prior to the start date to confirm any changes. This outline is designed to give you an overview scope of what is covered in the program. The design and order of skill progressions in Quantum Speed programs may be adjusted based on the performance level of each group.

\*Skating Performance Skill Acquisition -"SPSA" Off-Ice Sessions are designed as part of the ice-time and are not separate from it. They are skating specific and are not optional. They do not conflict with your external dryland training.

\*Performance Excellence Seminar topics and leaders are subject to change based on the needs of each group.

\*Any injuries must be reported immediately to both on-ice and off-ice Head Instructors.
